Frequently Asked Questions

What if I don't have fresh dill?

Fresh dill is ideal; it's especially flavorful when chopped finely. Dried dill can be used in a pinch—though it won't provide the same flavor as fresh. Dried herbs are more concentrated, so you'll need to use much less to avoid a bitter taste. Instead of using 2 tablespoons of fresh dill, use only 2 teaspoons of dried dill. To be cautious, you might even consider starting with less and adjusting to taste.

What should I know about choosing a good Dijon mustard?

We recommend using a Dijon mustard that originates from France. It should be pale yellow, and the mustard seeds should be whole and either brown or black. The ingredients list should only include mustard seeds, water and vinegar—nothing artificial or with added sugar.

What's the best way to store Lemon-Dill Vinaigrette?

Store the vinaigrette in an airtight container for up to 3 days. Before using, let it sit at room temperature for 5 minutes; then shake or whisk well. It's best to add the fresh dill just before serving to ensure peak freshness and flavor.

How should I use the vinaigrette?

This vinaigrette is a simple way to flavor a green salad or cooked vegetables. It works wonderfully over a cucumber salad and can replace the dressing in our Sesame Cucumber Salad. You can also drizzle it over roasted salmon, cod, shrimp, tofu, couscous or Steamed Fresh Green Beans, new potatoes and other cooked vegetables like carrots or asparagus.
